

## JDM5Z

### ► Technical parameter:

Model	JDM5Z	
Machine Size	585*585*705mm	
Tools	10	
Input Voltage	220v	
Spindle Power	0.8kw	
Machine Power	3kw	
Cooling mode	Air cooling	
Net Weight	218kg	
Rotation	A/B	A: 360°, B: ±30°, ±90°
Range	XYZ	165.5x108x93
Spindle	Mode	Dry milling
	Speed	3,000-60,000rpm
Materials	Zirconia, PMMA, PEEK and etc.	

### ► Performance characteristics:

**Automatic** CAM automatic programming, data management, open system, acceptance of world common format files, automatic identification of tool path, improve productivity;

**Simple operation** Excellent and simple human-computer interface, easy to understand, no professional CAD/CAM operation skills, just one key operation;

**Quality assurance** The key components that affect the quality of the whole machine are imported high-quality accessories from the world's top brands;

**Persistent operation** The excellent mechanical structure is the foundation to ensure the mechanical accuracy and rigidity. The international standard full meter Hanna cast iron is adopted. It is integrally formed without welding. The original accuracy is still maintained after years of use.
